Gentlemen:

We are preparing to publish a list of the Life Saving Medals that have been given out in this country, including Governmental, State, Organizations etc., both for saving life on sea or land.

We understand the Bureau of Mines presents both a Bureau of Mines Medal and a J. A. Holmes Safety Medal. Would it be possible to get information concerning these two, such as, what they are awarded for, their scope, when and how awarded, etc.? We would also like a photograph or reproduction of these medals and the metals in which they are issued.

Very truly yours,

HW:JG
